

Corporate Sponsors

Learning Developer is a custom eLearning development consulting company that produces Flash-based SCORM compliant multimedia courseware including interactive games, quizzes, audio/video lectures, Flash 3D animations/illustrations, and more. Our instructional designers work with our clients' subject matter experts to create outcomes-based training based upon proven adult learning theories. We create "edutainment", which is entertaining education.

MediaManagers is an Internet and multimedia development company specializing in building custom websites based upon open source technologies and custom code. We deploy feature-rich social networking websites like DreamTheater.com that include user logon/profiles, blogs, chat, discussion boards, HTML email newsletters, and more.
